

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

Claim 13 (new): A device for providing a drink from extracts, comprising:
at least one container for an extractable mixture which is at least partially permeable to liquid and which container comprises at least two container parts pivotally connected to each other,

a cover connected to the container, which cover comprises at least two cover parts pivotally connected to each other, wherein each cover part is pivotally connected to a separate container part,

wherein the container is connected to the cover such that the device is pivotable between a folded-out active position, in which a substantial part of the container lies at a distance from the cover, and a folded-up non-active position, in which the container is at least substantially enclosed by the cover.

Claim 14 (new): The device as claimed in claim 13, wherein each cover part is connected, at least close to a side remote from the adjacent cover part, to a part of the container part at least close to a side remote from an adjacent container part.

Claim 15 (new): The device as claimed in claim 13, wherein the container is manufactured from a flexible material.

Claim 16 (new): The device as claimed in claim 13, wherein each container part is provided with at least one compartment for the mixture.

Claim 17 (new): The device as claimed in claim 13, wherein at least one cover part is provided with an incision extending to a side of the cover part for the purpose of positioning the device.

Claim 18 (new): The device as claimed in claim 17, wherein the incision is given an at least partial hook-like form.

Claim 19 (new): The device as claimed in claim 13, wherein the container is at least substantially non-permeable to the mixture.

Claim 20 (new): The device as claimed in claim 13, wherein the cover and the container are connected releasably to each other.

Claim 21 (new): The device as claimed in claim 20 , wherein the container is provided with coupling means for co-action with counter-coupling means forming part of the cover.

Claim 22 (new): A cover for use in a device as claimed in claim 20.

Claim 23 (new): A container for an extractable mixture for use in a device as claimed in claim 20.
